

**ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT POLICY**

Our business is committed to sustainability and the prevention of environmental pollution. Reducing environmental impacts and protecting nature are fundamental priorities of our operations. To achieve these goals, we make the following commitments:

**LEGAL COMPLIANCE:**

Our business ensures full compliance with all environmental regulations and dedicates every effort and resource necessary to meet these requirements.

**WASTE MANAGEMENT:**

We work continuously to efficiently separate our waste at the source and process it in accordance with its hazard classifications. We strive to minimize waste generation and create opportunities for recycling.

**USE OF CHEMICALS AND HAZARDOUS MATERIALS:**

Hazardous materials and chemicals are used only when necessary and in required amounts. This approach aims to minimize their negative impact on the environment and reduce waste.

**ENVIRONMENTALLY FRIENDLY PRODUCTS:**

Our business prioritizes products labeled as "recycled" and "environmentally friendly" in material procurement, contributing to the preservation of nature. We also make continuous efforts to create opportunities for reuse.

**REDUCTION OF SINGLE-USE MATERIALS:**

We limit the use of single-use materials, such as paper, napkins, toilet paper, and packaging, to what is strictly necessary, focusing on reducing waste and leaving a smaller environmental footprint.

**WASTE MANAGEMENT AND STORAGE:**

We segregate waste appropriately based on its types and characteristics and hand it over to licensed or authorized companies. We maintain waste records regularly and ensure compliance with legal storage durations.

**EFFICIENT USE OF RESOURCES:**

We prioritize the efficient use of resources, focusing on minimizing consumption, reducing waste, and optimizing the use of energy, water, and raw materials. This approach helps to preserve resources for future generations and reduce our environmental impact.

**PERFORMANCE MONITORING AND IMPROVEMENT:**

We continuously monitor and measure our environmental management performance, comparing it against set goals. Regular assessments are conducted to consistently improve our performance.

**TRAINING AND AWARENESS:**

We aim to train our employees and increase their environmental awareness. We promote and raise awareness about environmentally friendly practices.

**This policy reflects our business's environmental commitments and encourages every employee to contribute to these goals. Environmental protection and waste management are core principles of our business, and we are open to continuous improvement.**
